Introduction of New Member

Hon. Mr. Speaker announced that a vacancy had occurred in the constituency of Chinook as a result of the death of the sitting Member, Mr. Henry Kroeger. Hon. Mr. Speaker further announced that he had received from the Chief Electoral Officer of Alberta, pursuant to the Election Act, a report containing the results of the by-election conducted on November 23, 1987, which states that a by-election was conducted in the constituency of Chinook and the said report further shows that Mrs. Shirley McClellan was duly elected as the Member for Chinook.

Her Honour the Honourable the Lieutenant Governor entered the Assembly and took her seat on the Throne.

Her Honour then read the following Speech from the Throne:

SPEECH FROM THE THRONE

Mr. Speaker and Members of the Legislative Assembly:

I have the honour to welcome you to the Third Session of the 21st Legislature of the province of Alberta.

As you begin this session of the Legislative Assembly today, you are building on the momentum of several remarkable achievements. Each is a major contributor to the well-being of our province, our communities, and our families.

For 16 days in February our province occupied the world stage. The XV Winter Olympic Games celebrated in Calgary, Kananaskis, Canmore, and Rocky View captured the hearts of visitors, participants, and more than a billion television spectators around the world.

To the thousands of volunteers who helped make the Games such a resounding success my government wishes to express its profound gratitude. The legacy of sports and recreational facilities and of international recognition, goodwill, and friendship will benefit all Albertans for many years to come.

Alberta Leadership

Nineteen eighty-seven was an historical year for all of Canada but was of particular prominence for Alberta. Through the leadership of Alberta's Premier, as chairman of the provincial first ministers, stronger ties were forged from sea to sea by the signing of the 1987 Constitutional Accord, known as the Meech Lake accord. This extraordinary achievement, unanimously agreed by a vote of this Legislative Assembly on December 7, 1987, confirms the equality of all provinces within the Canadian constitutional family.

The Meech Lake accord contains a commitment for first ministers to meet, beginning this year, to address meaningful reform of the Senate. A high priority for my government, again with the leadership of Alberta's Premier, will be the presentation to the constitutional meeting of a proposal for a Triple E Senate, a Senate which is elected with equal provincial representation and effective powers.

In January, after months of intensive and crucial negotiations during most of which Alberta's Premier was chairman of the provincial first ministers, the Canada-United States Free Trade Agreement was signed. My government looks forward to the Parliament of Canada and the United States Congress passing the necessary legislation to bring this agreement into effect by 1989. It will assure trading access to the largest and richest market in the world and will bring long-term benefits to many sectors of the Alberta economy.

In November of this year my government will host the fourth annual first ministers' conference on the economy in Calgary. The conference will provide government

leaders the opportunity to discuss and develop co-operative policies and programs to respond to the economic and social challenges facing Canadians.

Economy Regaining Momentum

The Alberta economy strengthened in the second half of 1987.

Oil and gas investment recovered due to my government's incentive programs and to higher prices through much of the year. Increased exports also stimulated activity and employment.

Unfortunately, many grain farmers have been under tremendous pressure due to low world market prices. However, the situation for livestock producers is much more positive.

My government's diversification efforts are producing success. Major new investments are under way in forestry. The tourism and high-technology sectors are making solid gains, with Alberta leading the nation last year in new jobs for technically oriented professionals. A record 1.152 million Albertans were at work.

As outlined in the 1987 Budget Address, my government's fiscal plan is directed to balancing the budget in a fair and orderly manner over a period of four years. As a result of this responsible approach to managing provincial finances, investor confidence in Alberta has been improved.

Assuring Excellence in Education

My government places the highest priority on education.

A new School Act will be introduced during this session which will set a clear direction for education in the future. This Act will be substantially changed from Bill 59, introduced last year, to reflect the very extensive public input received. The new Act is founded on these principles: access to quality education, equity, flexibility, responsiveness, and accountability.

Using a gift of $1 million from the Kahanoff Foundation in Calgary, the Department of Advanced Education has established an endowment fund of $3 million. The income will be used to support a centre of excellence in training teachers of gifted students.

Implementation of the policy paper, Secondary Education in Alberta, announced in June 1985, will continue. New courses and programs are well advanced and will be enhanced this year by additional funds to be presented in the budget later in this session.

As more Albertans of all ages seek further opportunities in postsecondary education, enrollments continue to grow. More financing to support increasing enroll-

ments has been added to institutional base budgets. In response to the special growth in northern Alberta, extra funding will be provided to Grant MacEwan college in Edmonton for the delivery of university transfer programs for several hundred Albertans.

Advancing Good Health and Medical Care

The Premier's Commission on Future Health Care for Albertans will recommend a course of action to ensure Alberta's health care system continues to be the best in Canada well into the next century. The commission will explore the impacts of changes which have occurred recently in health care delivery, beginning with the role of nurses, and has invited ideas and suggestions from all interested Albertans.

The ministerial committee on ambulance services will complete its review and present its report and recommendations. Also, the report, A New Vision for Long Term Care -- Meeting the Need, has been completed. Its recommendations are directed at further improving what is already one of the most effective systems of long-term care in Canada.

Major improvements and additions to the Royal Alexandra hospital in Edmonton have been approved. These improvements will enable the hospital to treat a greater share of the more complex and difficult cases from northern and central Alberta.

My government is convinced that good physical, mental, and emotional health leads to a life-style which provides the vitality necessary for strong families and vibrant communities. Over the next year my government is committed to substantially increase efforts to prevent disease, to promote health, to develop community care alternatives for institutional care, and to nurture individual independence.

My government shares concern with many Albertans about the increasingly high number of teenage pregnancies and the high rates of sexually transmitted diseases. Accordingly, my government will implement a comprehensive reproductive health strategy to reduce these high rates. This strategy will include family planning and sexuality education programs and will ensure access to clinics in all regions of Alberta to screen sexually transmitted diseases.

As part of my government's overall emphasis on the prevention of disease and workplace injury, the workplace hazardous materials information system will be implemented. It will provide information on hazardous materials to employers and employees.

The Alberta Alcohol and Drug Abuse Commission will continue its effective programs of quality treatment and its education programs for all Albertans. The commission will expand treatment capability in Grande Prairie to serve northwest Alberta.

Strengthening Agriculture

The primary importance of agriculture and the family farm has been a key to Alberta's economic and social well-being since our province was formed. My government continues to recognize that priority by providing a commitment to the agricultural industry which ensures its stability and economic growth.

During the past year my government has vigorously presented Alberta's position on agriculture in the General Agreement on Tariffs and Trade multilateral negotiations and the Canada/United States trade negotiations. My government is especially enthusiastic about the benefits to Alberta producers which the Canada-United States Free Trade Agreement offers. My government will continue to ensure that the interests of Alberta's food producers are advanced in national and international policy forums.

My government is concerned about the serious problems caused by depressed international commodity prices. Alberta has successfully fought to have national assistance plans developed for farmers. Alberta's special programs to reduce farm input costs such as the farm fuel distribution allowance and fertilizer price protection will be continued in 1988 as will the Crow benefit offset program.

The $2 billion Alberta farm credit stability program, a major goal of my government, has resulted in annual savings to Alberta farm families of more than $40 million, based on current interest rates. Following a full review of the Agricultural Development Corporation, my government has reaffirmed its commitment to beginning farmers, to rural communities, and to a diversified agricultural economy.

The remote area heating allowance program, the primary agricultural producers rebate program, and the farm water grant program have also been extended for an additional three years.

My government is pleased that more than 6,000 rural party-line telephones have been converted to private lines to enhance the quality of life and services for these rural Albertans. The coming year will be very important in this major conversion program, as a further 26,000 rural party lines will be converted to private lines.

As a result of a comprehensive review of the Alberta hail and crop insurance program my government will make adjustments to be more responsive to various conditions throughout the province. To provide an income safety net for more Alberta producers, my government's participation in tripartite stabilization programs has been expanded to include sugar beets and dry edible beans.

In partnership with the Alberta Food Processors Association my government is undertaking an enhanced three-year marketing strategy to increase markets for Alberta agricultural products.

Secondary value-added agricultural processing is an important component of my government's strategy for economic diversification and stability in agriculture and the food industry. Fifty-three million dollars in assistance has been offered to over 600 projects ranging from food processing to innovative new products. These incentive programs have encouraged substantial private-sector investment in many communities.

The Farming for the Future program continues as a key component of Alberta's agricultural research effort. A new element of that effort, the Alberta Farm Machinery Research Centre at Lethbridge, has recently been announced.

Soil conservation legislation will be introduced which will enable local municipalities to strengthen their bylaws concerning management and reclamation of land.

Diversifying the Economy

Balanced economic growth will continue as a priority to ensure that all Albertans have the opportunity to share in this promising future.

Strategies to capitalize on Alberta's traditional strengths of energy and agriculture and to use this economic foundation as a springboard for growth and diversification are showing good results.

An important step in Alberta's diversification plan is the construction of a new magnesium plant near High River, expected to begin this spring. This plant will provide 600 person-years or more in construction jobs and a permanent work force rising to at least 250 by 1994. It also creates the potential for the casting and fabrication of magnesium products adjacent to the plant.

Alberta's petrochemical industry is benefiting from the strong worldwide demand for petrochemicals. Further investments in this key sector are under consideration in areas such as ethylene, ethylene derivatives, and fuel additives.

My government has aggressively developed its long-term economic diversification blueprint. Alberta businesses have diversified into tourism, forestry, and the development of advanced technologies and have rapidly created new and rewarding employment opportunities for our citizens.

Diversifying through Technology

Alberta's academic excellence and internationally recognized research scholars and facilities have developed promising products and processes attracting worldwide interest. My government is assisting to transfer these innovations from the laboratory to the marketplace. Biotechnology, electronics, and microelectronics, telecommunications, computing and software, lasers, and new materials are the technological streams my government especially wishes to encourage.

More than 40,000 people in Alberta are now employed in advanced technologies; 1,200 companies are busy applying new technologies. Alberta's expertise is being exported daily to many parts of the globe.

My government is committed to assisting our energy and manufacturing industries in the adaptation of new technologies to maintain their international competitiveness, to reduce production costs, and to provide exportable services. My government will continue to provide special support to Alberta's small and emerging advanced-technology companies.

Increased support will be given to the Alberta Research Council so that it can share facilities and researchers with private companies to develop and apply new technologies.

In 1988 the Alberta Heritage Foundation for Medical Research will open its second medical research facility. The foundation was started in 1980 with a $300 million endowment grant from the Alberta Heritage Savings Trust Fund and will support more than 100 full-time medical researchers in 1988. An international board of review reported last year that the fund has created a remarkable milieu for medical research and training which has already benefited patients.

Diversifying through Forestry

My government has achieved unprecedented growth in Alberta's forest industry. In 1988 there will be four large forestry projects under way which, upon completion, will provide over 5,000 new direct and indirect jobs in central and northern Alberta. The combined capital costs of these and other projects will total $1.5 billion. With a priority on forest renewal and a resource among the most economic in the world continued strong growth in this sector is assured.

Major projects are under way or approved at Hinton, Whitecourt, and Peace River. Expansion of the Champion Forest Products pulp mill at Hinton will create 370 jobs at a capital cost of $361 million. In Whitecourt Millar Western Ltd. is nearing completion of a $194 million pulp mill. It will employ new technology and create 365 direct jobs.

Also at Whitecourt, the Edmonton-based Alberta Newsprint corporation will invest $360 million in a newsprint facility with state-of-the-art technology, creating 375 jobs. This will be Alberta's first newsprint mill. Doubling of Alberta Newsprint's capacity is expected as part of the company's long-term plans.

The largest of the major forestry projects is the Daishowa Canada Ltd. pulp mill to be built near Peace River. Strong growth of the regional economy is anticipated, as the project will create 600 direct and 1,200 indirect jobs with a capital cost in excess of $500 million. Daishowa Canada's mill will be one of the largest in Canada and is unique in that it is primarily based on aspen.

Alberta leads Canada in reforestation practices. Reforestation will continue to be a very high priority of my government in order to support strong growth in this sector. All timber harvest areas are reforested to ensure the complete renewal of the forest. Forestry management is based on sustaining yields for generations to come.

My government has also incorporated the highest environmental protection measures in the design of Alberta's forestry projects. Multi-use planning ensures that recreation, watershed, and wildlife resources are protected.

Diversifying through Tourism

To build on the worldwide awareness of Alberta generated by the XV Olympic Winter Games, my government will launch a new international promotion program. As well, the successful Take An Alberta Break program will be renewed and expanded to adjacent provinces and states.

In addition, my government will initiate with the tourism industry a new joint marketing program, Team Tourism.

Response from communities throughout Alberta has been extremely positive to my government's community tourism action program. The program will provide cost-shared funding for tourism projects, main-street themes, and innovative ideas identified by communities.

During the next five years these new initiatives will provide over $50 million to assist the tourism sector to grow from its current annual level of $2.3 billion to a $10 billion industry by the year 2000.

Promoting our Business Entrepreneurs

The business community is the generator of both jobs and economic growth. In 1987 there were over 17,000 new businesses registered in this province, as Albertans once again demonstrated they are among the world's most innovative and competitive entrepreneurs.

My government's assistance for new ventures provides programs to encourage the formation of new businesses as well as to develop new markets for Alberta goods and services. New businesses helped by the Alberta small business incubator support program share common space and administration services and have access to information and management counseling.

My government is committed to providing the business community with viable approaches to financing. Last year the Alberta Opportunity Company's mandate was expanded and now includes a venture capital program in addition to loans and loan guarantees.

International trade is the lifeblood of the Alberta economy. Over 200,000 Albertans derive direct and indirect employment from the sale of goods and services to the United States, the Asia/Pacific region, the Soviet Union and eastern Europe, and the European Economic Community.

The Canada-United States Free Trade Agreement provides a window of opportunity to dramatically increase trade and investment opportunities in energy, agriculture, petrochemicals, forest products, processed foods, clothing, manufactured products, advanced technologies, and business services exported to the United States.

To ensure that Alberta's entrepreneurs have the skills and resources to take advantage of new international opportunities, the export services support program and the market development assistance program will be strengthened. To enhance international marketing skills the management assistance program will be expanded.

My government will continue to promote Alberta's attractive investment climate to prospective investors around the world through more co-operative joint departmental initiatives such as the highly successful Asia/Pacific mission of last year. Alberta's outstanding potential for trade and investment will be reaffirmed.

In order to better safeguard the interests of depositors, a new Credit Union Act will be introduced. The Alberta Securities Commission is being strengthened and expanded to provide full service through its Calgary office.

Continuing Recovery in the Energy Sector

Nineteen eighty-seven was a year of recovery for the Alberta oil and gas industry. Drilling activity improved dramatically, land sales were up sharply, production increased, and over $3 billion in new capital was attracted to the oil and gas sector. A major natural gas discovery in the Caroline area added an estimated 2 trillion cubic feet of natural gas reserves to the province. Exploration continues to focus on the Caroline area, as well as in the High Prairie, Rainbow Lake, Zama, Joffre, and Crossfield regions.

Natural gas markets also improved during 1987. Natural gas exports to the United States increased by 30 percent over 1986 volumes. My government's pursuit of natural gas deregulation and the Canada-United States Free Trade Agreement will permit the natural gas industry to continue to benefit from improving natural gas markets.

Oil sands and heavy oil development is a priority of my government. It is emerging as a vital factor in generating employment opportunities and investment benefits and in maintaining our crude oil supply capability for future generations of Albertans and for all Canadians. The current fiscal environment has encouraged over $1 billion worth of investment in heavy oil and oil sands development

projects, including projects at Cold Lake, Fort McMurray, and Elk Point. Negotiations are proceeding on a number of other projects as well.

My government will continue to work with industry and with other governments in Canada to promote the upgrading and development of our oil sands and heavy oil resources. In keeping with this goal, legislation government the terms and conditions of oil sands leases will be amended to encourage accelerated development of these deposits.

My government has acted on several fronts to ensure that the coal industry maintains its viability despite a difficult world market environment. Joint industry/government research and development programs will be pursued in such areas as the viability of coal slurry pipelines, coal agglomeration, heavy oil and coal co-processing, and the use of coal-fired steam generation in oil sands and heavy oil production.

Enhancing Employment Opportunities

During the coming year my government will continue its vigorous efforts to assist Albertans in realizing their employment, training, and career aspirations. Besides the expanded opportunities created by economic recovery, my government will support job creation and training programs as well as career planning services throughout the province.

My government is particularly pleased by the success of the employment alternatives program, which will continue in 1988. Introduced in June 1987, the program provided social allowance recipients and those whose unemployment insurance had been exhausted with work experience and training opportunities to enable them to find permanent employment. More than 6,000 positions were approved under the employment alternatives program during its first seven months of operation, reflecting the strong work ethic of Albertans.

As part of an educational process to acquaint our young people with the possibilities open to them when they leave school, my government has introduced the Stepping Stones program as a pilot project in six Edmonton schools. Over 400 women across Alberta have volunteered to act as role models in this program. They will share their experiences in a wide range of occupations with junior high students, demonstrating the scope of employment opportunities open to our youth.

Supporting Municipal Leaders

The Premier's Provincial-Municipal Council, chaired by the Premier, is a major new leadership step. Through this council my government will work with municipalities to identify alternative responses to the needs of Alberta communities into the next century.

The Municipal Statutes Review Committee, made up of representatives from municipalities throughout the province, is reviewing all legislation that affects Alberta municipalities. The committee is working co-operatively with my government in this major undertaking.

My government will also initiate a regional response improvement program to further assist municipalities in obtaining additional emergency response equipment.

During the past year, under the special Alberta municipal partnership in local employment program, $26.2 million in unconditional grants was distributed to Alberta municipalities to help foster local employment.

Building On Our Values

My government is proud of the continuing commitment of its citizens to long-standing values. Honesty, integrity, self-reliance, compassion, and a love of family, of home, and of community, provide a solid framework within which my government will continue its agenda for action.

Based on these values, a social policy statement, Caring and Responsibility, will be presented to the Legislature during the current session. Social programs will be founded upon the principles in this policy statement.

My government recognizes that persons with disabilities should be full and equal participants in the life of Alberta. To achieve this participation, my government wishes to enhance the status, dignity, and quality of life for these Albertans. Legislation will be introduced to implement the Premier's Council on the Status of Persons with Disabilities. It will advise the government and inform all Albertans about issues of interest and concern to persons with disabilities.

In recognition of the increasing proportion of seniors in the population, the Senior Citizens' Advisory Council has been focusing on ways to assure that seniors can continue to enjoy their own homes and independent life-styles for as long as possible. In keeping with this direction, the theme of Senior Citizens' Week in 1988 will be: Senior -- Active in the Community. The Fourth Alberta Seniors' Games, another demonstration of the vitality of our senior citizens, will be held in August in Vermilion. My government continues to recognize the very solid foundation provided to Alberta by our pioneers.

Albertans have a proud heritage of providing assistance to those citizens who cannot help themselves. My government has been actively reviewing its social allowance program, giving special attention to the ability of recipients to provide nutritional meals to their families. Rates will increase substantially, based on recognized measurements, where need is shown.

Amendments to the Child Welfare Act will be introduced this year and decisions on child care reforms will be made after full study of the recently announced national child care strategy.

Following extensive consultation with Albertans, my government will introduce a new labour code to provide for a fair and equitable relationship between employees and employers.

New initiatives in the areas of law enforcement, driver training, driver assessment, and more effective management of problem drivers will be implemented. In addition, the government will conduct all driver testing.

The well-established and successful Check Stop program will be intensified, and new educational programs will make Albertans more aware of the dangers of impaired driving. My government will assist business and special interest groups to reduce the human, social, and economic costs associated with this problem.

My government places a high priority on the safety of Albertans and on the provision of services to victims of crime. In order to better ensure that victims are treated with respect, compassion, and sensitivity, stronger ties will be forged between government departments, police-based programs, and organizations providing services to victims. Better communication between these key players will result in programs of consistent high quality across the province.

Treasuring our Heritage

The communities of Fort Chipewyan and Fort Vermilion celebrate their bicentennial this year. These are our province's oldest trading centres. They were originally built as forts in 1788 by the North West Company to intercept furs then being traded into Hudson Bay and the Hudson's Bay Company. Roderick Mackenzie, Charles Boyer, Alexander Mackenzie, and Peter Pond are historical figures whose exploits will be celebrated along with stories of the fur trade, exploration, and early agriculture. Albertans extend congratulations and best wishes to the residents of Fort Chipewyan and Fort Vermilion.

The multicultural commission, to be chaired by a Member of the Legislative Assembly, will be established to strengthen my government's commitment to the many ethnocultural communities that enrich the lives of all Albertans.

Also this year, Ukrainian Albertans are commemorating the millennium with Ukrainians worldwide. Christianity arrived in the Ukraine 1,000 years ago, and the numerous celebrations throughout the province to mark the event are strongly supported by my government.

My government has given priority to developing regional library systems to bring a high level of library and information service to Albertans, particularly in smaller centres and rural areas. To help these systems operate effectively and efficiently,

capital assistance will be provided for the renovation or construction of headquarters facilities.

In addition, funding has been approved for the establishment of Alberta's fifth and newest regional library: the Shortgrass library system, which will provide service to over 60,000 people in the southeast part of the province.

This year construction will begin on the Reynolds-Alberta Museum in Wetaskiwin. As well as providing Albertans with a lasting tribute to our transportation and agricultural history, the museum will create another fascinating tourist attraction in north-central Alberta.

The Remington-Alberta carriage centre, an interpretive centre for a collection of horsedrawn vehicles, has been approved for construction in Cardston. The centre, which will house the combined carriage collections of the Remington family, the Glenbow-Alberta Institute and the Provincial Museum of Alberta, will serve as an exciting gateway attraction to a provincewide network of provincial historic sites and museums.

The Canada/China/Alberta Ex Terra dinosaur project is ongoing and will continue to strengthen relations with the People's Republic of China. In addition, it will draw worldwide attention to this unique portion of our province's cultural and historical heritage.

My government is also committed to the protection and enhancement of Alberta's environment, which is so important to our quality of life and to our recreational opportunities. During 1987 eight new ecological reserves were established to preserve unique wilderness lands.

During the coming year new initiatives to strengthen the enforcement of Alberta's environmental statutes will be undertaken, as well as a strengthening of Alberta's conservation strategies.

Members of the Legislative Assembly:

In due course you will be presented with the budget estimates. You will be asked to authorize the necessary funds for operating services and expenditures and to endorse a program of capital financing for the government of Alberta.

I leave you now to the business of the session with full confidence that as elected representatives your debates and your votes will reflect your responsibilities to all Albertans.

Mr. Premier, I was saddened to learn of the death of Mrs. Getty's mother, Mrs. Warren. To you, to your wife, Margaret, and to the family, I offer my deepest sympathy and the sympathy of Albertans. May God be with you.

ORDERS OF THE DAY

Statement by Mr. Speaker

Hon. Mr. Speaker made the following statement:

Yesterday, the Member for Edmonton-Centre requested, under Standing Order 40, a motion be debated because of its urgent and pressing necessity. Inadvertently, a debate arose surrounding the urgency of the motion in question, brought on perhaps by a point of order which was raised by the Hon. Minister of Community and Occupational Health.

However, after reviewing Standing Order 40, I note that only the mover shall be allowed to explain the urgent and pressing necessity. I draw this to the attention of all Members who may in the future wish to use Standing Order 40 as a means in which to debate a motion. I would also expect that the mover of such a motion would be able to express the case of urgency in a very brief and succinct manner, perhaps a couple of sentences.

So the Chair apologizes to the House yesterday for having allowed other Members to speak to the matter of urgency, when Standing Order 40 is quite clear that it is only the mover who has that opportunity.

Consideration of Her Honour the Lieutenant Governor's Speech

Moved by Mrs. Mirosh and seconded by Mr. Cherry:

That an humble address be presented to Her Honour the Honourable the Lieutenant Governor as follows:

To Her Honour the Honourable W. Helen Hunley, Lieutenant Governor of the Province of Alberta:

Moved by Hon. Mr. Johnston:

4. BE IT RESOLVED THAT the Legislative Assembly approve in general the fiscal policies of the Government.

Government Bills and Orders

(Second Reading)

The following Bills were read a Second time and referred to Committee of the Whole:

Bill	8	Natural Gas Rebates Amendment Act, 1988 -- Hon. Mr. Adair
Bill	14	Appropriation (Interim Supply) Act, 1988 -- Hon. Mr. Johnston
Bill	15	Appropriation (Alberta Heritage Savings Trust Fund, Capital Projects Division) Interim Supply Act, 1988-89 -- Hon. Mr. Johnston
Bill	16	Appropriation (Alberta Capital Fund) Interim Supply Act, 1988 -- Hon. Mr. Johnston

Statement by Mr. Speaker

Hon. Mr. Speaker made the following statement;

> Yesterday, at 5:30 p.m. a motion was entertained on Bill 201. In reviewing Hansard, it's apparent that Members may have had different perceptions as to what the motion was. Unfortunately, reading Hansard does not clarify the situation, and it still remains unresolved as to what the order of the House was with respect to this Bill.
>
> To resolve this question, Erskine May, Pages 391 and 392, allows, in a case where procedures were irregular, the Speaker to ask the House to declare an order of the House null and void. If together we can assume yesterday's order null and void, it would be treated as if it did not take place and the Bill would stand on the Order Paper. The House will decide any question on the Bill should it come up again.
>
> The Chair therefore asks the House now if we might have an order to declare the question put to the House yesterday as null and void.

Moved by Mrs. Cripps:

> That the proceedings of the House on the motion of the Member for Edmonton-Kingsway with respect to Bill 201 be declared null and void and that the Bill stand on the Order Paper.

A debate followed.

Unanimous consent of the House was given to withdrawal of the motion.

Hon. Mr. Speaker made the following statement:

> With respect to the question that was put on Bill 201, that it be now read and received, Mr. McEachern, the Hon. Member for Edmonton-Kingsway, moved the question. Under Standing Order 25(1), the mover of the motion, the Hon. Member for Calgary-Forest Lawn, had the right of reply, and Mr. Speaker has the duty to inform the House that the mover will close debate. Mr. Speaker did not do that. Since other Members wished to contribute to the debate, further debate should have, in all likelihood in the normal course of events, been allowed.
>
> If it was the intention of the Hon. Member for Edmonton-Kingsway to move the previous question, which properly worded would have been "That this question be now put" under Standing Order 47(1), debate still would have continued on the Bill as the previous question itself is debatable under Standing Order 18(1)(c) and Beauchesne 452(1). So in actual fact, that's part of where we got ourselves to today. So whatever happened now stands.

Consideration of Her Honour the Lieutenant Governor's Speech

Moved by Mrs. Mirosh and seconded by Mr. Cherry:

> That an humble address be presented to Her Honour the Honourable the Lieutenant Governor as follows:
>
> To Her Honour the Honourable W. Helen Hunley, Lieutenant Governor of the Province of Alberta:
>
> We, Her Majesty's most dutiful and loyal subjects, the Legislative Assembly, now assembled, beg leave to thank Your Honour for the gracious speech Your Honour has been pleased to address to us at the opening of the present session.

A debate followed.

Mr. Bradley moved adjournment of the debate, which was agreed to.

On motion by Hon. Mr. Young, Government House Leader, that it be called 1:00 p.m., the Assembly adjourned at 12:50 p.m. until Monday, March 28, 1988, at 2:30 p.m.

ORDERS OF THE DAY

Questions

The following questions were accepted:

(Mr. Chumir)

145.

(1) Is the Government aware of a report prepared by Mr. J.W.K. Shortreed, Q.C., possibly in the 1970s, with respect to certain Alberta financial institutions and their regulation?
(2) Will the Government table a copy of this report if it exists?

Hon. Mr. Johnston, Provincial Treasurer, provided the following oral answer:

Just so the record is absolutely clear, let me say that with respect to the first part of the question, the answer is: yes, we are aware of it, and 2, "will the government table a copy . . .?", the answer is no. This report, Mr. Speaker, is a matter of public record already. It is now before the Code Inquiry as a public document.

(Mr. Ewasiuk)

147. What was the total cost of all advertising purchased by the Government in each of the categories of:

(a) television,
(b) radio,
(c) daily newspapers,
(d) weekly newspapers,
(e) magazines and other periodicals, and
(f) transit and billboard

during each of the following months:

(1) January 1980 to June 1982, inclusive
(2) March 1983
(3) April 1987 to March 1988, inclusive?

Hon. Mr. Russell, Minister responsible for Public Affairs, provided the following oral answer:

With respect to Question 147, Mr. Speaker, the answer to subquestion 1 is: the information is not available as requested. The same answer applies to subquestion 2. Subquestion 3: as soon as March, 1988, has elapsed, we will prepare the answer and table it.

(Mr. Mitchell)

155. Why did the Government approve Order in Council 745/87 regarding a $400 million issuance and sale of notes at 9 1/4% semi-annually in the U.S., thereby exposing itself to currency exchange risk rather than considering a further Alberta bond issue?

Hon. Mr. Johnston, Provincial Treasurer, provided the following oral answer:

Mr. Speaker, in answering 155 I'm assuming that the intention of this question is to deal with the currency exchange risk, as opposed to the use of the funds. I could go on forever describing the use of the money, and that has essentially been outlined in the priorities in the budget: education, health, diversification. But I think if it is, in fact, the second part of the question that the member is attempting to draw to our attention, then I can indicate that we borrow the money in the United States as part of our balanced strategy to enter a variety of markets in a variety of currencies. It isn't that we've precluded using either the Canadian market or, for that matter, the Alberta capital bond market; we will obviously use our discretion and use both of those markets to secure long-term financing for the province to finance the deficit. And, as I've indicated earlier in the House, I will be considering the possibility of bringing forth an Alberta capital bond in this summer similar to the very successful $900 million capital bond that was issued in June 1987.

With respect to the currency risk itself, Mr. Speaker, I should advise the house that this $400 million U.S. bond, which was issued in the fall of 1987 -- if you were to take the current exchange rate between that date and now, recognizing that the Canadian dollar has strengthened against the U.S. dollar, in fact we have saved $31 million on this transaction. The effective rate of that transaction takes the coupon from 9.75 down to an effective rate of 8.7 percent, far below the current borrowing in the Canadian market, now running around 9.75.

Mr. Speaker, with respect to the general policy: the government uses its discretion to either fix its rate, to hedge its currency, and to obviously protect

itself against unusual changes in exchange rate fluctuations on a time-to-time basis. But as you can see it is sometimes appropriate to take the risk, as we have done in this case, wherein the profits to the province of Alberta are significant. The effective borrowing cost to the province, in fact, improved, and obviously we can pass these benefits on to the people of Alberta through reduced taxation or, certainly, through limiting the size of our expenditures with respect to debt retirement intra-service costs. That is a policy question that's been addressed here, Mr. Speaker. In as brief a way as possible, I've attempted to provide an answer to the member.

The following questions were ordered to stand:

Mr. Taylor to ask the Government the following question:

146. How much money did the Alberta Government give to Ducks Unlimited in each of the years 1983-87 inclusive?

Mr. Pashak to ask the Government the following question:

148. In view of the response given by the Minister of the Environment to a question in the House that Alberta Environment did not do any soil tests at the Imperial Oil Ltd. Calgary refinery over the past 20 years, for each refinery in Alberta, on what dates between April 1, 1972 and March 31, 1988, were soil tests carried out by Alberta Environment or any person acting for Alberta Environment?

Mr. R. Speaker to ask the Government the following question:

149. For each of the 1985-86, 1986-87 fiscal years, where the Government of the Province of Alberta has paid private legal, accounting or other professional fees pursuant to the operation of appeal panels or tribunals, public inquiries, or any other inquiries or proceedings commenced pursuant to legislation in the Province of Alberta, other than proceedings of the courts in the province, provide the following information:

(a) the total of such fees for each of the said panels, tribunals or proceedings.

(b) the recipients of such fees, and the amount received in total by each recipient for services provided to each of said panels, tribunals or proceedings.

Ms. Barrett to ask the Government the following question:

150.

(1) With regard to the Temporary Staff Service Program terminated by Personnel Administration at June 1, 1984, for each of the last five fiscal

years during which the program was in operation (shown separately for each year), what was

(a) the average number of people employed by the program, full-time and part-time (shown separately),

(b) the average rate of pay, and the range of rates of pay, of people employed in the program,

(c) the number of people employed solely to administer the program, and

(d) the total annual cost of the program?

(2) For the 1984-85, 1985-86, and 1986-87 fiscal years (shown separately for each fiscal year), what was/were

(a) the total cost of meeting the Government's temporary staffing needs through private sector agencies,

(b) the names of all corporate persons contracted to supply temporary staff to the Government,

(c) if known, of those individual persons contacted as temporary staff through private sector agencies, the number who worked more than 30 hours per week for more than three weeks,

(d) the names of those five corporate persons paid the most in public funds for temporary staff services contracted by the Government, and

(e) the average cost per temporary staff worker per hour paid by the Government to private sector agencies contracted to supply temporary staff?

(3) Will the Government table in the Assembly all studies on the basis of which the decision was made to terminate the Temporary Staff Service Program and secure temporary private sector agencies instead?

Mr. Taylor to ask the Government the following question:

153. What is the legal description of all parcels of Crown land converted from grazing leases to private ownership from January 1, 1986 to December 31, 1987, and the price paid for each parcel?

ORDERS OF THE DAY

Questions

The following questions were accepted:

(Mr. Taylor)

146. How much money did the Alberta Government give to Ducks Unlimited in each of the years 1983-87 inclusive?

Hon. Mr. Fjordbotten, Minister of Forestry, Lands and Wildlife, tabled the response to Question 146.

(Sessional Paper No. 146/88)

(Mr. Taylor)

153. What is the legal description of all parcels of Crown land converted from grazing leases to private ownership from January 1, 1986 to December 31, 1987, and the price paid for each parcel?

Hon. Mr. Fjordbotten, Minister of Forestry, Lands and Wildlife, tabled the response to Question 153.

(Sessional Paper No. 153/88)

(Mr. Taylor)

168. How much money did each of the recipients of Alberta Disaster Assistance receive from the Provincial Government in 1987/88 following the Edmonton tornado of July 31, 1987, and who were each of those recipients?

Hon. Mr. Kowalski, Minister of the Environment, provided the following oral answer:

I'm very pleased this afternoon to provide some information with respect to Question 168 which deals with dollars allocated to the tornado and related activities in the latter part of July 1987. It's difficult, however, for me to provide an individual breakdown, as there are some 1,400 plus applications in question. I believe that there is a provision at some time in the future for specifics in terms of name and dollar allocation that would be published in Public Accounts.

I would, however, like to provide to the Hon. Member a breakdown in terms of how we've estimated a calculated payout of $60.3 million with respect to the tornado situation, and this information has been consolidated as of April 8, 1988. So that will give you the updated accuracy of that.

In terms of the estimated cost of $60.3 million it's our calculation that basically the $12 million will be provided to businesses, $2.3 million to cleanup, $3.3 million to re-establishment grants, $12.4 million to job-retainment loans, and $.9 million will be allocated in interest. In addition to that, there should be $11.5 million provided to municipalities, $5.2 million to individuals, $1.8 million to farm programs, $5.4 million which will be allocated to various other departments of the government that were involved in this, and $5.5 million to emergency utilities restoration, comes to a total of $60.3 million.

Now, Mr. Speaker, I can provide additional information with respect to this this afternoon. My understanding was the question being asked is that there's an opportunity to provide a verbal response, and I think that it would probably be helpful to do that.

(Mr. Taylor)

173. What was the cost of all advertising undertaken by the Department of the Environment from September 1, 1987 to January 30, 1988, to publicize the Swan Hills hazardous waste disposal facilities on television, radio, and in newspapers?

Hon. Mr. Kowalski, Minister of the Environment, provided the following oral answer:

Question 173 asks for the cost of all advertising undertaken by the Department of the Environment with respect to the Swan Hills hazardous plant, and the answer to that question is $405.21.

(Mr. Younie)

174.

(1) Will the Government introduce legislation to amend the Environment Council Act to provide for the appointment of the chairperson of the Council on the recommendation of the Assembly, following an open competition conducted by a Special Select Committee of the Legislative Assembly; and,

(2) What are the reasons for the Government's response to question (1)?

Hon. Mr. Kowalski, Minister of the Environment, provided the following oral answer:

There are two questions being asked in 174, one, will the government introduce legislation to amend a certain Act. The answer to that is no. Question number two said: what are the reasons. The reasons are we currently have legislation called the Environment Council of Alberta Act which governs the process.

(Mr. Taylor)

175. How many seasons tickets to Edmonton Oilers hockey games does the Government own; what is the purpose for having these seasons tickets; who are those individuals who have used these tickets from January 1, 1986 until March 16, 1988; and why have each of these individuals been given these tickets?

Hon. Mr. Young, Government House Leader, provided the following oral answer:

The question is quite specific. It says how many season tickets to Edmonton Oilers hockey games does the government own, and it gives time periods of January 1, 1986 to March 16, 1988. I can be equally specific that no department of government nor Executive Council owns any Edmonton Oiler hockey tickets or season tickets for that time frame, and accordingly, I am unable to answer the balance of the question.

The following questions were not accepted:

(Mr. R. Speaker)

149. (2) tubal ligations

were performed in Alberta hospitals?

(Rev. Roberts)

The following questions were ordered to stand:

148. In view of the response given by the Minister of the Environment to a question in the House that Alberta Environment did not do any soil tests at the Imperial Oil Ltd. Calgary refinery over the past 20 years, for each refinery in Alberta, on what dates between April 1, 1972 and March 31, 1988, were soil tests carried out by Alberta Environment or any person acting for Alberta Environment?

Her Honour the Honourable the Lieutenant Governor was then pleased to deliver the following speech:

Mr. Premier, Mr. Speaker, Hon. Leader of Her Majesty's Loyal Opposition, Hon. Ministers, and Members of the Legislative Assembly:

I almost hesitate to correctly use all that salutation and use up 30 seconds more of your time, because I'm aware of how many hours you have already put in in your service to the people of this province. However, I suppose if I wanted to treat this lightly, I might say that if this were a ball game, it would be called on account of rain. The rain is almost over, you'll be glad to hear, and I'm sure there's a fair amount of relief in all your minds because this longest session on record is finally over.

Also, I have been observing with interest the activities of this Legislature. I am aware that while we go back with a great and honourable tradition, we have during this session created some new traditions for our province and for this Legislature. These should not be taken lightly. I think that as we move and change in order to adequately interpret the views of the people that are represented here, it's important that we keep that in mind and that we have always foremost in our minds the great desire that I know each person here has, to serve their constituents and the people of Alberta to the best of their ability. I am grateful for that. So, too, I believe, are the people.

I wish you an opportunity to have some relaxation so that you may return to this House and to your other activities, as you serve the people, refreshed and renewed. I wish you well.

Her Honour the Honourable the Lieutenant Governor then retired from the Assembly. / Puis Son Honneur l'honorable Lieutenant-gouverneur se retira de l'Assemblée.

The Assembly adjourned at 5:16 p.m. until such time and date prior to the commencement of the Fourth Session as is determined by Mr. Speaker after consultation with the Lieutenant Governor in Council.
